Ispahan, March 6.

THE Conspiration of Attemat Doulet, or chief Minister to the King of Persia, who had purposed to dethrone his Master and Place himself in the Throne, being discovered, those designed Effects of the Conspiracy are prevented, and the chief Minister's Eyes are put out and himself kept close Prisoner, to oblige him to declare his Treasure ; 40000 Persian Ducats are already discovered, together with a great Store of foreign Money, Jewels, and Ingots of Gold and Silver. The King of Persia has sent his Generals into several Provinces, to prevent Commotions, and to seize Persons suspected to have born any Part in the Conspiracy.

Algier, Aug. 7. The Bey has ordered several Privateers to sail towards the Coast of Spain, to get Intelligence of the Dutch Squadron, and the necessary Dispositions of Defence are made here in case that Squadron should come before this Port ; at the Entry of which two large Ships have been sunk, and two Batteries erected. Rome, Aug. 19. Advices from Rome say, the Pope is very affiduous in gaining the Indulgences and visiting the Churches ; that the Example of the Pontiff has made so deep an Impression upon the Cardinals and others of the Prelacy, that nothing hardly is to be seen at Rome, but pompous Trains attending the Cardinals and Nobility to the Churches where they pay their Devotions ; the Magnificence of these Shews drawing Admirations from a vast Number of the common People, who leave their Occupations, and waste whole Days in viewing them, made Pasquin say, " That the Extravagancy of this Sort of Practice will ruin the Cardinals, and make the common People grow idle." The Devotions are followed by much Feasting, Serenades, and other Diversions, in which the Cardinals strive to out do each other. The Banquet given some time ago by Cardinal Colona, was interrupted by a sad Accident, a Balcony falling down, in which were several Persons, they were most of them dangerously hurt, and the Marquis of Mantua was killed.

Geneva, Aug. 29. Advices from France say, that the Government has forbidden the Inhabitants of Lyons, upon pain of Death, not to have any Communication with the Gevaudan, where the Contagion is mightily increased, and it is said has infected two of the Battalions that invested Canourgue. The Duke of Roquelaure has caused Marengue to be surrounded by 800 Men, and is gone himself with 1500 to shut up the Passages of other Places.

Stockholm, Aug. 16. Notwithstanding the Weather is already grown very cold, the King of Sweden continues still at Wykberg ; and it is said the Waters he drinks there have had so good an Effect, that his Majesty has now got quite rid of his Ague and Fever. This Morning early the Queen went to visit the King. As the Weather is become pretty boisterous, Sir John Norris went down this Morning to Capel-Sheare, in order to remove the Fleet under his Command from thence to Elsinab.

Berns, Sept. 3. Letters from Schafhuisen of the 28th past advise, that the Peasants of ilchingen are deaf to all Remonstrances and Exhortations of the four Deputies from the late Genl Dyer's Instead of asking Pardon, and submitt to the Government of Schafhuisen, they prefer to an absolute Indemnity ; and demand not only a Restitution of their Privileges, but several Exemptions, and the Right of appealing to the Emperor in all their Affairs, declaring openly, that they never will detach themselves from his Imperial Majesty ; they even demand Satisfaction for the Damages they have sustained during the Dispute. The Deputation at Schafhuisen was consulting how to bring over these refractory Peasants, found it difficult to agree upon proper Measur. The General Dyer of the three Leagues of Grisons is to assemble To-morrow at Coire.

Hamburg, Sept. 5. It is reported to the Deputies of this City at the Court of Vienna, have obtained so much Favour there as that the re-building of the Chapel and House of the Imperial Resident here will be dispensed with, provided this City gives another House to that Minister in which he himself may erect a Chapel : And it is believed that the House which was Baron Grotius's will be fixt upon for that Purpose. Advices from Mecklenburg say, that M. Scharf, Secretary to the Duke, was lately beheaded at Dossitz. H. Wolfrath, late Privy Councillor to the Duke, is yet kept in close Confinement. Hague, Sept. 2. The States of Holland have yet before them the undetermined Project concerning the Sale of the Domains of the Province, not having been able to resolve unanimously about it, by reason of new Difficulties presented against it by some Persons. They likewise have under Deliberation the Proposal for adding the Post-Revenues to the Finances of the Province ; but the Magistracy of Rotterdam having joined the Post-Revenues to those of their City ; 'tis doubted if that Matter can be effected. A Letter being communicated to the States General, wrote from the Ministry of the Elector Palatine to the Duchies of Jülich and Berg, exhorting them to use their utmost Precautions against the Plague ; their High Mightinesses have for Answer sent a Particular Detail of the Measures observed here for that Purpose, even to the Punishment by Death, inflicted upon the Contraveners of their Proclamations, which yet remain in Force. Letters from Paris say, that upon the Information received by the Government, that certain Merchant-Ships were sailed from Langadoc for the Levant, where they took in some part of their Lading, and procured Certificates as coming from thence, but it being since discovered that they compleated their Cargoes at Marseille, Orders are therefore given not to suffer those Ships to enter at any of the Ports of that Kingdom.

There are yet but little Appearance of
Accommodation between the Ostend Tra-
de and the East-India Company of this Pro-
vince, the former demanding considerably more
for Troops sustained by the Capture of their two
Ships of the African Coast, than the latter
seem'd to allow: In the mean time, the
Sale one Dutch-Ship the Company being put
off, 'tis hoped that that Delay may, at last, be
the produce of reconciling Incidents; and occasion
an Adjourn.
